

SUPPLEMENTAL MEDICAL INFORMATION

In order for the school to be able to more effectively serve students in case of medical emergency, families who have students who will be remaining on permanent prescription medications or students who are authorized to be given medication by the office staff, must complete (for school filing) an "Authorization to Admit Medication" medical information form which will remain on file at the school. If you have a student(s) in this situation or circumstance, please fill out the enclosed form or contact the school office for more information.

IMPORTANT NOTICE

The State of Georgia Health Department will not allow us to have a child at school who does not have current immunization which is substantiated by the proper form. If the school does not already have an up-to-date immunization record, please have your doctor or health department complete form #3132 and turn into the school office by the first day of school.

PLEASE NOTE

STUDENT MEDICAL INSURANCE

As part of your tuition KHCS provides individual student supplemental medical accident insurance. If your student(s) is injured during the school year while involved in a school-sponsored activity please contact the Business Office for information concerning the coverage provided through the school.
